Dr. Miles' Nervine Restores Health

UNCLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Restorative Nervine has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and used up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring full particulars of my satisfactory experience."

Dr. Miles' Restorative Nervine is sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

FEVER AT HAMPTON

Situation Continues Favorable in the Opinion of the Hospital Officials.

NO SPREAD OF CONTAGION

Dr. Wyman Thinks It Too Soon to Make a Definite Prophecy Regarding the Outbreak—Germany's Order Excluding Belgium Slaughtered Beef Aimed at America.

Washington, Aug. 4.—The yellow fever situation at Hampton continues favorable and encouraging in the opinion of the officials of the Marine hospital service. According to officials there has been no spread of the contagion since last report nor has any of the cases now under treatment proven fatal since that time. It is hoped to confine the disease to the Soldiers' home and Phobias, but Surgeon General Wyman thinks it too early to make a definite prophecy regarding the outbreak, as it

SURGEON GENERAL STERNBERG, is only five or six days since the presence of the fever became known to the officials here.

Dr. Wyman late last night received the following telegram from Dr. Vickers, stationed at the Soldiers' home: "Situation favorable and encouraging; no new cases and no deaths."

Dr. Wyman has received from the home a list of the members of the institution who were furloughed on and after July 22, the day after a number of the inmates became sick with the fever. Accompanying the names was the exact dates and time of the furloughs and the destination of those to whom they were granted. Most of the inmates furloughed fortunately have gone to northern cities.

Regarding rumors said to prevail in Newport News that government experts had pronounced the disease not to be yellow fever, Dr. Wyman and General Sternberg each said last night that no such information had been sent to either of them and that no reason was known for questioning that the disease was fever.

No Fever at Norfolk. Norfolk, Va., Aug. 4.—Dr. F. S. Hope, who is in charge of the quarantine here, gave out an interview yesterday in which he says there is not a case of yellow fever nearer Norfolk than Phoebas. There is a cordon of armed guards to protect Hampton and Old Point Comfort from Phoebas. Newport News is also maintaining a strict quarantine, not only against Phoebas, but against Hampton and Old Point as well. Norfolk, Portsmouth and all other municipalities this side of Hampton Roads have quarantined against all the points mentioned on the peninsula.

Newport News. Newport News, Va., Aug. 4.—Encouraging reports only are heard as to the situation in the fever outbreak. Several telephone messages have been received from Hampton, and Colonel Woodfine reports no new cases and no

In all times and among all people beauty and love are associated. We all believe that Eve was beautiful.

Esther found favor because of her comeliness. Love and jealousy caused by Helen of Troy made historic trouble. For two nations, Nobody ever conceived an ugly Juliet. Heroines of romance are always beautiful.

Ideas of beauty differ but the one sort of loveliness that all agree upon is the beauty of health. No matter what her features, no sickly woman can be attractive. Sallow skin, sunken cheeks, pimply face, hollow eyes, lifeless lips—these are repellent. And they can nearly always be traced to the one cause—womanly weakness or disease. Almost all the ills of womanhood are cured if you put the feminine organism into healthy, vigorous condition. All sickness of women seems to involve these delicate organs and so no matter what the symptoms may be it is best to look there for the real trouble.

All such disorders are completely and permanently cured by Dr. Pierce's Favorite Prescription. It is designed for just this one thing and is the only preparation of the sort produced by a regularly graduated physician—a skilled specialist in the diseases of women.

Miss Maud Kenyon, of 1333 Orange St., Los Angeles, Cal., writes: "I had been afflicted with my eyes for over a year with such a dreadful itching and inflammation that I could not use them for anything. Physicians had given me many different remedies which were like using so much water; they measured my eyes for glasses, the glasses did not benefit me in the least. My mother desired me to write to Dr. R. V. Pierce, at Buffalo, N. Y., and explain the condition of my eyes. I did so, and after following his advice, and using eight bottles of the 'Favorite Prescription' I can say my trouble is entirely removed. My health was never so good as it is now."

GERMANY'S ACTION

Excluding Beef Slaughtered in Belgium Aimed at American Product.

Washington, Aug. 4.—Official letters received here from the representatives of the United States in Germany bring many details concerning the recent action in that country looking to the exclusion of beef slaughtered in Belgium from the German markets, and leave little room for doubt that this is done for the purpose of preventing the indirect introduction of an American product. The letters state that proclamations have been issued by the authorities of the Prussian provinces of Ansbach, Dusseldorf, Osnabrück, Lüneburg, Schleswig, Danzig and Gumbinnen and also in the grand duchies of Oldenburg and Mecklenburg and by the ministry of Alsace-Lorraine against the admission of beef slaughtered in Belgium. These subdivisions of territory cover the entire Belgium frontier of Germany and render it impracticable to introduce any Belgian beef into the empire. While the central government of Germany takes no official action in the premises, it is pointed out here that the course of the subordinate governments is inspired from Berlin, and some of the proclamations set forth that the action is taken at the instance of the imperial chancellor.

Will Visit the President.

Washington, Aug. 4.—Secretary of the Interior Hitchcock will join the president at Lake Champlain about Aug. 18 for a stay of about a week. He will leave in a few days for Marquette, Mass., to visit a daughter, and after a brief visit in New Hampshire will proceed to Lake Champlain.

DEER HUNTING

President McKinley Will Have a Chance to Enjoy the Sport.

Plattsburg, N. Y., Aug. 4.—Mrs. McKinley's health is improving rapidly. She went driving twice yesterday, the president holding the reins both times. Their route was up the Saranac valley, and Mrs. McKinley returned from the drive very much refreshed. The deer hunting season will open one week from next Tuesday, and President McKinley will have an opportunity of enjoying the sport, as some of the finest hunting ground in the Adirondacks is within a few hours' journey. The deer are so numerous this year that they are coming out of the woods into the clearings and causing much damage to the crops of farmers.

SANTIAGO

Two New Cases of Yellow Fever and One Death.

Santiago de Cuba, Aug. 4.—Two new cases of yellow fever were officially reported yesterday and one death from the disease. Colonel Meola is expected here tomorrow to begin the payment of the Cuban soldiers in this city. No impatience has been displayed thus far over the necessary delay.

The beneficial effects of the payments already made at Guantanamo is shown by the general purchasing of farming implements and clothing. Nearly 8,000 soldiers will be paid here.

Captain Hid in a Ditch.

Des Moines, Aug. 4.—The adjutant general is in receipt of Manila advices that Captain A. F. Burton of Company B, Fifty-first Iowa, from Villisca, has been suspended for cowardice and is at Manila awaiting dishonorable discharge. Burton was principal of schools at Wyomere, Neb., when the war broke out, and disappeared, going back to his old home at Villisca, Ia., taking the captaincy of the company. He is reported to have deserted his troops in an engagement and hid in a ditch while the company went into action without him.

Panic in Germany Predicted.

Berlin, Aug. 4.—The Deutsche Tages Zeitung publishes a sensational article predicting a great panic in the German money market. The paper said that during the last six months 1,805,000,000 marks of new shares were issued, of which 318,000,000 marks were industrial securities, which it is added, exceeds the whole issue of 1893. A mass of evidence is quoted to prove the existence of unground speculation.

Novel Excursion.

Seattle, Wash., Aug. 4.—A novel excursion to Alaska left here on the steamer City of Seattle. It consisted of about 300 persons, including the Presbyterian synod of Washington. The annual session of the synod will be held aboard the steamer during the voyage to Alaska. Gospel services and literary and musical entertainments will be given and revival meetings held in the cities on the Alaskan coast.

CARRABELLA STORM

Much Worse Than Reported, the Town Being Literally Wiped Off the Map.

THIRTEEN SHIPS ASHORE

They Were Laden With Millions of Feet of Lumber—One Woman Killed and Fifteen Fishermen Cannot Be Found—Towns of McIntyre and Curtis Mills Demolished.

Tallahassee, Fla., Aug. 4.—The first train since Monday from Carrabelle, through the storm-stricken gulf coast section, reached here last evening, passengers having been transferred twice from a flatcar from Carrabelle to a lever car between Coal creek and the Ocklocknee river and then to the relief train for Tallahassee.

The train crew and passengers agree in stating that reports sent out of the destruction wrought by the storm have been extremely moderate.

Carrabelle is literally wiped from the map. Her docks and wharves, containing about 400,000 feet of lumber and 50,000 barrels of resin, were quickly swept away. Thirteen or 14 large lumber vessels in the bay were swept ashore and are now lying well up on dry land. These vessels contained several million feet of lumber. No information is obtainable as to the loss of life from these vessels or from the large fleet of fishing boats in the neighborhood.

Only two or three huts are left standing in Carrabelle, and one colored woman is known to have been killed by the falling of a house.

Citizens of Carrabelle are in a state of wild confusion and are looking in every direction for relief. The town is isolated and the wires still down. The towns of McIntyre and Curtis Mills are completely demolished, and large interests have been destroyed. The coast resorts, Teresa and Lanark, are more seriously wrecked than at first reported and visitors have suffered great hardships, though no loss of life is yet known.

Fifteen men, said to have been seen fishing on Dog Island just before the storm broke, cannot be found.

UNION STONE CUTTERS

May Upset Laying of Cornerstone of Chicago Federal Building.

Chicago, Aug. 4.—Complaints have arisen in connection with the laying of the cornerstone of the new federal building, which may interfere with the arrangements, if they do not upset them entirely. The officers of the Chicago Stonecutters union say there will be no cornerstone laying, unless President McKinley or some other visiting official takes off his coat, lifts the stone into position himself, smears the mortar which is to set it, trues it up, and leaves it as it is to stand as long as the building lasts. These complications have arisen because the union has been unable to reach an agreement with Contractor John Pierce, who is cutting the stone.

BLIND CHAPLAIN

Dr. Milburn Prostrated by Sunstroke at Lincoln, Neb.

Lincoln, Neb., Aug. 4.—Dr. W. H. Milburn, the blind chaplain of the United States senate, was prostrated by sunstroke and is unconscious yesterday afternoon while delivering a lecture at the Nebraska Epworth assembly at Lincoln park. He was brought to the city and revived, under care of a physician. Late last night he was much improved and doctors look for almost complete recovery in time.

Another Car Dynamited.

Cleveland, Aug. 4.—The withdrawal of several companies of troops was followed last night by another dynamiting outrage, but fortunately nobody was hurt. The explosion occurred under a Jennings avenue car, on which were six passengers. It smashed the flange of one of the wheels and splintered the runningboard at the side. The passengers were badly frightened, but none were injured, and the car proceeded on its way to the end of the run.

FRIDAY AUGUST 4, 1899.

Don't say a word about the weather. It is too hot to talk about.

Iowa republicans declare unequivocally for sound money as they did two years ago.

Some of those who have hounded General Alger since the beginning of the war now exhibit signs of very great sympathy. It is not worth while to ask their politics or inquire what their motives have been from the start.

"Three hundred million bushels of corn and \$50,000,000 on deposit in its banks," said Representative Curtis, "have drowned out the calamity wailers and restored Kansas to its old place among the sure republican states. Thousands who voted for Bryan in 96, will vote for McKinley next year, and it can be classed among the certainties that Kansas will give the republican presidential electors not less than 25,000 majority."

COLUMBIANS democrats are endeavoring to secure W. J. Bryan for a speech the 8th of next January, Jackson Day. "Who knows but this meeting will be the means of bringing the warring factions together and making friends of the Herald, Times and Democrat. They could all act on the reception committee with Sam Denison, the original free silver man of the county, as chairman and then sit together at the banquet and then after eating and drinking together to their own good health they could smoke the pipe of peace. Such a "get together" opportunity occurs rarely.

REPRESENTATIVE SMITH of Illinois, thus summed up the amusing wobbling of the democrats on the issues of the Presidential campaign: "The democrats may try to run their campaign on a dozen issues, but the moment they nominate Bryan they will force the silver issue to the front. They cannot escape it if he is the nominee as now seems practically settled. Mr. Bryan cannot subordinate silver unless he descends to mere pettyfogging in politics, for he is the embodiment of the idea. If silver is not mentioned in the platform, and Bryan is nominated, the people will not be deceived. They know Bryan's position too well."

ROMAN WEALTH AND WASTE.

Pearls Dissolved in Wine and a Re- lay of Dinners For Mark Antony.
E. H. House, writing on "Bright Sides of History" in St. Nicholas, tells this story of ancient extravagance: "The pearl which Cleopatra drank to Antony's health was valued at nearly \$400,000, so at one mouthful she disposed of as much as the cost of California's supper. I suppose that was the most valuable pearl we have any knowledge of. Though Julius Caesar owned one worth \$350,000, which he gave to the mother of Brutus—the same Brutus who afterward helped to kill Caesar. Pearls seem to have held out particular temptations to people who took pleasure in wasteful follies, perhaps because no other jewel could be so easily swallowed.

"Cleopatra's prank was not the first of its kind. The same absurdity had been committed by a silly fellow in Rome named Aesop—not your favorite fable teller, for he lived centuries earlier, and was a very wise man. The Roman Aesop was the son of a rich actor, and, just to make himself talked about, he took a pearl from the eardrop of Cecilia, the wife of the tyrant Sulla, and, according to writers of that age, drank it in vinegar. I believe that the possibility of dissolving this kind of gem is disputed by many modern authorities, but the ancients appear to have had no doubt on the subject, for the instances recorded by them were numerous and were attested by men of scientific standing. A Japanese naturalist, who has studied pearls minutely, states that he has found them of such various quality and structure that the existence of specimens which might be melted does not seem to him inconceivable. But whether Aesop liquefied his pearl or not the performance certainly cost him a sum equivalent to \$40,000—quite enough, though nothing in comparison with what Cleopatra squandered. Here was the wildest piece of extravagance that I can recall.

"It was the fashion to be extravagant then. Mary Antony was not far behind the Egyptian queen in that respect, though his fancy was not for beverages flavored by trinkets. Substantial food was more in his line. A visitor who once went into the kitchen of his palace in Alexandria saw eight wild boars roasting at the same time and thought there must be an immense number of guests expected, but the cook told him only 12 persons would dine that day, and the reason of the extensive preparations was that no one could say exactly when Antony would go to the table. But whenever he gave the signal the meat must be just in proper condition at that moment. So it was the rule to get ready a series of dinners, overlapping one another, you might say, at intervals of 15 or 20 minutes. Only one could be eaten, and the rest were wasted, but the waste did not matter. Antony was never kept waiting, and that, in his opinion, was the thing to be considered."

MY LADY NICOTINE.

The Alleged Effects of Tobacco and its Enormous Consumption.

Probably no pleasure of life has had its praises so much sung as smoking. Here is the other side. Doctors say tobacco used in excess produces:

Palpitation of the heart, muscular tremblings, weakness and paralysis of the legs, dizziness of the head, noises in the ears, cold perspiration all over the body, colicky pains in the stomach, inability to exert the mind, congested and sore throat, burning of the tongue, dry and parched mouth, tartar and blackness of the teeth, confusion of sight, catarrh of the stomach, catarrh of the throat and nose, sallow complexion, very bad dyspepsia, lopsided mouth, nervous anxiety, cancer of the lips, diminished appetite, pale and anemic gums, loss of memory, omission of every fifth pulse beat, ruin of the will power, irritability of temper, extreme and incurable melancholy, restlessness and sleeplessness, blindness and deafness, apoplexy and paralysis, convulsions and death.

In the case of children it stunts their growth, when a person is consumptive it hastens his death, when the heart is weak it almost completely stops the beating, when you have a cough tobacco keeps it going for weeks, and it interferes with singing and swallowing.

Yet about 1,500,000,000 pounds of it are smoked every year.—New York World.

Worthy of Whistler.

As an artist Jack Gamble is considered as independent as he is successful. He possesses an unlimited quantity of candor, upon the expression of which he places no restraint. He is much liked notwithstanding, and was not long ago offered a commission to paint the portrait of a certain wealthy man, whose features are more remarkable for their bloom than for their refinement. Jack critically scanned the broad features of his proposed subject.

"Upon one condition will I paint you," he declared dramatically.

"What?" gasped the amazed Croesus, speechless at the effrontery of this poverty stricken artist.

"Yes," pursued Gamble, with easy grace. "Upon condition that I shall be allowed to put in a little intelligence."

And the funny part of it was that Jack got the commission.—San Francisco News Letter.

The sagacity of the fox is most wonderful. It is related that he is tormented by fleas, and when the infestation becomes unbearable he gathers a mouthful of moss and slowly walks backward into the nearest stream until only the mouth is left above the surface of the water. The fleas meantime take refuge on the moss, and when the fox is satisfied that they have all embarked he opens his mouth, and the moss drifts away, while the wily fox regains the bank, happy in freedom from his tormentors.—Exchange.

There are only 3,842 left of the Ainos of Japan—the "Indians" of that country. Nearly all of them live on the northern island of Yezo.

It has been estimated that it would take a man 8,000 years to read all the standard works.

THE BIRD'S PETITION.

Deep in leafy woodland bowers,
Bright with undergrowth of flowers,
O'er the dappled mead and pool
And in tangled lanes most cool,
Pipe the thrush, the finch and lark
From the dewy dawn to dark,
And they pipe and never tire,
Soft as sweet as love's desire.

Song to me they seem to sing,
On the branch or on the wing;
"If you leave us space and sky,
Room to nest and sing and fly,
Gave to us your roundelay,
And like honeyed dew, we sing,
Or like wild winds made us free,
Leave, then, leave us to our song,
Woods and meads and flowers among."
—Charles Lusted in Gentlemen's Magazine.

HENRY RANG OFF.

But When He Got Home That Night There Was Trouble.

Apropos of nothing in particular—unless it be electricity—I heard a druggist tell of a little occurrence in his shop the other day.

He was alone and putting up a prescription behind his large partition screen when a stylishly dressed woman entered and asked with some excitement for the telephone.

He enquired her in front of it and returned to his work.

She took off her gloves, rang up "central" and began:

"2170—street. Yes, yes, Mr. Henry Weeker. Yes, yes. He's at No. —Beekman street. Yes. Oh, is that Mr. Weeker?"

Then her voice hardened.

"Henry, why did you tell me you went to Philadelphia Thursday? What? No, you did not. I know better. Don't you stand there and lie to me like that! No, I won't! What do I care for the girl in the telephone office? You just attend to me and let her alone! I'm in a drug store. They're not listening at all. I want an explanation. No, indeed, I will not wait till you come home tonight! By that time you'll have hatched up a fine story and brought up a couple of brutes to swear to it. Mrs. Wallace says her husband saw you at the club Thursday night and that you were going out to play poker all night. Oh, no, he isn't! He's a very nice man, and I am much obliged to him. You wouldn't dare do anything of the kind! What? You won't, eh? Well, you'll talk when you get home! Here, wait a moment. Don't shut off!"

But the sentence was over, and she paid her 15 cents and stalked out with flashing eyes that boded ill for the lively Henry.—Cincinnati Enquirer.

What Solomon's Temple Cost.

"A Biblical student in this city," says our Washington correspondent, "declares that if the descriptions of Solomon's Temple are accurately given in the Bible and by secular authorities, the total value of that edifice and its contents must have exceeded \$50,000,000,000. In the first place, the value of the materials in the rough is estimated at \$12,500,000,000, and the labor at \$3,000,000,000. According to Villalpando, 10,000 men were engaged in dressing cedar lumber, 80,000 were engaged in cutting stone and 60,000 in bearing burdens for a period of seven years, who, in addition to their wages, received 50 cents a day for food. According to the same authority, which is corroborated by Josephus, the vessels of gold were valued at 140,000 talents, which, reduced to American money, is equal to \$2,328,481,015. The vessels of silver are calculated at \$2,231,715,000, the vestments of the priests and the robes of the singers at \$10,000,000, and the value of the trumpets of gold was \$1,000,000."—Chicago Record.

Outspeeded the Swallow.

A swallow is considered one of the swiftest of flying birds, and it was thought until a short time ago that no insect could escape it.

A naturalist tells of an exciting chase he saw between a swallow and a dragon fly, which is among the swiftest of insects.

The insect flew with incredible speed and wheeled and dodged with such ease that the swallow, despite its utmost efforts, completely failed to overtake and capture it.

Glove Cutting.

The cutters of the great glove-houses at Brussels and in France earn even higher wages than the cutters of the most fashionable tailors in London and New York. So difficult is this art of cutting gloves that most of the principal cutters are known to the trade by name and by fame, and the peculiar knives which they use in the business are so highly prized that they are handed down from generation to generation as heirlooms.

The Long Lived Elephant.

According to Aristotle, Buffon and Cuvier, the elephant may live for two centuries. After his victory over Porus, Alexander consecrated to the sun an elephant that had fought for the Indian monarch and gave it the name of Ajax. Then, having attached an inscription, he set it at liberty. The animal was found 350 years later, making its age easily some between three and four centuries.

Yet It Is So.

HOW TO ESCAPE COLDS.

Not by Coddling, but by Becoming Able to Endure Necessary Exposure.

It is not always sufficient to point out a danger. It is often of even greater importance to show how the danger may be averted. Most people properly recognize a cold as avoidable and think they are greatly to be commended for the prudence they exercise in protecting themselves, but if they did but know it they are really doing all they can to make themselves susceptible to colds by weakening their resisting powers.

A German professor once wrote a long treatise, with a learned title, on how to avoid catching cold. After tracing the history of colds from the earliest ages, studying their causes and symptoms and cataloging the remedies which have been used by the most eminent physicians of all times he concluded with a short chapter on prevention.

His plan was to insure the back of the neck to drafts by having some one direct a current of air upon it from a bellows three times a day.

The writer had the correct idea, although its practical application was clumsy and he was a long time in reaching it. The best and only way to escape colds is to meet the causes that produce them and not to run from them.

Let the body be hardened by a cold sponge bath or even a cold plunge, followed by brisk rubbing with a "scratchy" towel, every morning. Let the clothing be adapted to the season, though always as light as possible, but keep the neck uncovered—no turned up coat collar, no muffler, no box. Never let the temperature in the house rise above 70 degrees in the winter. Air every room systematically every day, no matter what the outdoor temperature may be. Always have fresh air in the bedroom. There is nothing poisonous in "night air," popular belief to the contrary notwithstanding.

In a word, don't be always afraid of catching cold, don't coddle, but meet cold and wet and changes of temperature like a man, or rather like a horse, and you will then run a better chance of being as strong as a horse.

Of course you must strengthen your armor where it is weak, but if you recognize in yourself a weak place, a "cold spot," don't cover it up with more clothes, but toughen it and toughen your entire body until it is one homogeneous resistant whole.—Youth's Companion.

IT WAS GENUINE.

The Signature of William Shakespeare That Admiral Lucie Had.

At the time of the New Orleans exposition, in the winter of 1884-5, Admiral Lucie was in command of the north Atlantic squadron and was sent down there to add to the gayety of nations, which no other old scoundrel could do better than he. Upon his return the flagship was anchored in New York bay, where it was visited by many people. One day a party came aboard which included among others a very pretty girl and a very dignified and learned Englishman. As Admiral Lucie was entertaining them in his cabin he asked the pretty girl if she would like to see an original autograph of William Shakespeare.

At this the dignified and learned Englishman pricked up his ears and remarked that he had made a study of the autographs of Shakespeare and was positive there was no authentic example in America. Admiral Lucie replied that he was very positive his was authentic and that its genuineness had never been questioned. This made the Britisher quite mad, and he delivered a lecture on the fraudulent autographs and manuscripts that were brought over to America and exhibited as originals.

"Well," replied the admiral, "I am convinced that my autograph of William Shakespeare is genuine, and I am going to have the pleasure of showing it to this young lady." Whereupon he went to his desk, took out his visitor's book, turned back a few pages and then pointed out the signature, "William Shakespeare, mayor of New Orleans, Jan. 12, 1885." The Englishman gave a painful gasp and retired.—Chicago Record.

Servian Marriages.

Servian men do not marry for love, but to secure an additional worker for the household, so very young men marry women several years older than themselves, as girls are less experienced in housework. In the lower and middle classes women are always helped last, and may not sit down unbidden in the presence of the men.

A Story of Sterility, SUFFERING AND RELIEF.

[LETTER TO MRS. PINKHAM No. 69,150]

"DEAR MRS. PINKHAM—Two years ago I began having such dull, heavy dragging pains in my back, menses were profuse and painful, and was troubled with leucorrhoea. I took patent medicines and consulted a physician, but received no benefit and could not become pregnant. Seeing one of your books, I wrote to you telling you my troubles and asking for advice. You answered my letter promptly and I followed the directions faithfully, and derived so much benefit that I cannot praise Lydia E. Pinkham's Vegetable Compound enough. I now find myself pregnant and have begun its use again. I cannot praise it enough."—MRS. CORA GILSON, YATES, MANISTEE, MICH.

"Your Medicine Worked Wonders."

"I had been sick ever since my marriage, seven years ago; have given birth to four children, and had two miscarriages. I had falling of womb, leucorrhoea, pains in back and legs; dyspepsia and a nervous trembling of the stomach. Now I have none of these troubles and can enjoy my life. Your medicine has worked wonders for me."—MRS. S. BARNHART, NEW CASTLE, PA.

AN EXCITED LAWYER.

A CASE THAT WORKED HIM UP TO THE BURSTING POINT.

The Outrageous Conduct of Juror No. 6 and the Explanation Which Changed the Counsel's Anger to Limp Bewilderment.

"In my 30 years' experience as a practicing lawyer," said a well known member of the bar at the Lawyers' club the other day, "I don't believe I ever went through a more exciting trial than one I took part in out at Freehold, N. J. When I say exciting, I mean exciting for me, for I was the only one who appeared to be concerned about the conduct of the man who occupied the sixth seat in the jury box.

"The case was a civil action, and I represented the plaintiff. It was a small matter, and we were suing for only \$500, but as my client happened to be a personal friend, and he was more anxious to establish a principle than to collect any money, I was out to win.

"The judge was a sedate individual, who slept most of the time, and the jury looked as though it had been drafted from the hayfields. I scored well for my client with the first witness and was looking out of the corner of my eye to see what effect the point had had with the jury, when I noticed the man in No. 6 scowling furiously at me. When I continued to make headway with the next witness, he shook his head, scowled and looked as though he'd like to eat me up. The rest of the jury-men kept watching him, and I began to think I was up against a pretty stiff proposition.

"Finally I threw a question at a witness, which if honestly answered I knew would establish our claim to damages. No. 6 evidently thought so, too, for he rose from his seat, shook his head vigorously at the judge, and leaning over the rail waited for the judge's decision, for by this time the defendant's counsel had made an objection.

"The judge ruled against me, and No. 6 fell back into his seat and laughed as though he was the funniest thing he had ever heard. I was mad clean through by this time. Such outrageous conduct I had never seen in court.

"Your honor," I began protestingly.

"Go on with the case," roared his honor.

"But, sir," I began, "this is the most extraordinary—"

"Go on with the case," interrupted the judge once more, and seeing it was vain to protest I went on.

"Well, this thing went on all through the trial. Every point I made brought a scowl to the face of No. 6. Every point my opponent made brought smiles to his face. When I summed up, he kept shaking his head vigorously and saying things in an ugly tone, but under his breath. Once he threw his hands up in the air in protest, and I got so mad that I could have hauled him out of that box and thrashed him with pleasure.

"When the defense summed up, the fellow grinned with delight. He shook his head approvingly at all the lawyer said, and once, when the lawyer indulged in abuse of me, he clapped his hands together as though he was dying to applaud. During the judge's charge he scowled and smiled alternately, according to which side his honor favored.

"We're gone," I whispered to my client, "and I never engaged in a better case than this. Rather than submit to such a barefaced steal I'll fight this case through every court in the state, and without a cent of fee too."

"The judge had finished by this time, and the jury had risen to go out. To my utter astonishment, No. 6 jumped over the rail of the jury box, and going over to where the defendant and his lawyer sat slapped the former on the shoulder and said in a loud voice, 'You'll win sure.' Here my indignation got the better of me. Rushing over to No. 6, I took him by the arm and wheeled him around.

"See here, sir, the jury has retired, and you might better be with them than talking to the defendant and his counsel."

"Why should I be with 'em?" he replied.

"Why, good heavens, man, can the jury deliberate while you're in the courtroom and they're elsewhere?"

"Don't know why not," he replied.

"I ain't no juror."

"Then who the devil are you?" I demanded.

"He's my hired man," put in the defendant.

"Then what was he doing in the jury box?"

"Why, consarn it, there warn't another seat in the room," said the hired man. "Didn't suppose I was goin' ter stand up, did yer?"

"I went back to my seat, completely bewildered, and as I sat down the jury came in, having been out five minutes. They gave me the verdict, and I was truly the most astonished man in the state of New Jersey at that moment.

"I found out afterward that before I began active work in the case juror No. 6 had been sick for a week and that the other 11 jurors had been acting without him under instruction from the court."—New York Sun.

It was in an aristocratic Hyde Park home. The well trained English butler had left, and the newly engaged man, a Swede, was in process of breaking in Callers came, and he took the cards to his mistress in his ungloved hands, leaving the silver card tray resting quietly in the hall.

"When you bring things in here, Swenson," said she, "use the tray. It is not proper to bring them in your hands."

"Yess," he replied.

Mrs. H. Park had a new toy terrier. The guests wished to see it, and she sent for Swenson to fetch it.

Soon there was a succession of staccato yelps and whines. The door opened, a very red faced Swenson appeared with the silver tray in his left hand and a tiny dog terrier held firmly down on it with the other.—London Globe.

An Old Friend.

A gentleman, while traveling on a certain railway, got out at a station where the train stopped for a few minutes and entered the refreshment room. His eyes resting on a basket containing buns, he suddenly burst into tears. The sympathetic attendant gently asked him what was the matter and elicited the following touching explanation:

"Pray excuse my emotion. Two years ago I was traveling on this line on my honeymoon. My wife came into this refreshment room and scratched our initials on a bun which I ate in this basket. I beg you to let me have it as a tender souvenir. Here is half a dollar."—New York Ledger.

The Editor's Protest.

The editor of The Clarion was a very patient man. A startling crash from the direction of the composing room caused him to push his spectacles upon his brow and cease writing. When he found that the boy had let the first page form fall on the floor, where it lay in an incoherent mass, he shook his head reproachfully and exclaimed:

"Lemuel, I do wish that you could manage to break the news more gently."

Twice in One Day.

Tuesday afternoon W. D. Bohall, of Brownstown, experienced two run-aways. He was on his way to Honeytown when his horse frightened at a camp of Gypsies at the roadside near the south end of the Mooney bridge. The horse ran into the bridge and collided with a buggy driven by a Miss Borcharding who took in the situation and managed her horse with remarkable coolness. Mr. Bohall disentangled his horse, which was very much excited by this time, and drove on to Brownstown. There he started to run again, giving a vicious lunge throwing Mr. Bohall to the ground, but he held on to the lines, the horse dragging him about forty yards. When free the horse went home at a merry clip, passing through the gates without striking a post. Damage to the buggy about \$5.00. Mr. Bohall has since sold the horse.

Grain-O Brings Relief.
To the coffee drinker. Coffee drinking
is a habit that is universally indulged
in and almost as universally injurious.
Have you tried Grain-O? It is almost
like coffee but the effects are just the
opposite. Coffee upsets the stomach,
ruins the digestion, effects the heart
and disturbs the whole nervous sys-

nerves. There is nothing but nourish-
ment in Grain-O. It can't be other-

BEHIND PRISON BARS

Abductor of Nellie Berger and Also a Horse Thief in the Penitentiary.

DROWNED AT NEWARK, O

Two Little Boys of Daniel Dowdy of
Muncie Lose Their Lives in the
Presence of Their Mother—Alleged
Murderer of George Peyton Cap-
tured in Kentucky.

Michigan City, Aug. 4.—Clyde
Thompson, horse thief and abductor of
Nellie Berger from her home near Gil-
lead, Miami county, was brought to the
state prison late yesterday afternoon by
way of the Lake Erie railroad for safe
keeping by Sheriff Fultz of Rochester
and his deputy, A. A. Gast.

Public sentiment against Thompson
in Miami and adjoining counties is so
ferocious that the officers believed that
the life of the prisoner would be in danger
if he should be taken to Peru, Roches-
ter or Plymouth.

Upon their arrival here the officers
conducted the prisoner to a photograph
gallery and had his picture taken. Thompson
objected to appearing before the
camera, but finally relented when the
officers pretended to appear in the
group with him. The advent of the
prisoner was not expected by the prison
authorities.

No legal arrangements had been made
by Thompson's captors for the prisoner's
incarceration in the state institution
and the fellow was held in the prison
office while Clerk Whitaker telephoned
to Judge Capron at Plymouth for an
order permitting the man to be placed
behind the bars, which was finally
granted.

Beautiful Indian Springs.
This property has lately been secured by
the Southern Indiana Hotel Co. The old ho-
tel has been demolished and a new one is now
in course of erection. This will be a mag-
nificent stone structure with all modern im-
provements; but will not be ready this sea-
son.

ell, General Immigration Agent, 535 Old Col-
umbus Bldg., Chicago, Ill.

ville For a Time.

Poseyville, Ind., Aug. 4.—Fifty or
more tramps got off a train here from
Evansville. The town marshal ordered
them to move on, but they were armed
with revolvers and defied his authority.
The tramps entered the home of Mrs.
Florence Duff, where two of them
searched for food and valuables, while
their companions stood guard at the
gate. The male inhabitants of the town,
meanwhile, rallied to the aid of the
marshal, and several shots were ex-
changed, the battle ending in 12 of the
intruders being placed under arrest.
The church bells were then rung, bring-
ing in the farmers, and with these re-
forcements the marshal succeeded in rid-
ding the town of its unwelcome guests.

Knights of Pythias Searching For
Charles Ruch of Jeffersonville.

Jeffersonville, Ind., Aug. 4.—Charles
Ruch, recently a leading merchant of
this city, has disappeared, and much
anxiety is felt for his safety. Some days
ago he became bankrupt. His reverses
affected his mind, and a constant watch
was kept over him. Last Saturday and
Sunday he conferred with the mayor, at
the time threatened self destruction and
on Monday he disappeared. A search
has been instituted, but so far has proven
unsuccessful. Ruch has a membership
in several lodges, and his life is heavily
insured. His family includes a wife
and several children. The Pythians
have undertaken the task of finding
him.

Crawfordsville Electric Light Plant
Badly Damaged by Fire.

Crawfordsville, Ind., Aug. 4.—The
electric light plant belonging to the city
caught fire yesterday and was so badly
damaged that the city was almost in
total darkness last night. It was only
with difficulty that a total loss was pre-
vented. All the street lights were pro-
vided by the plant, as also the lights in
a majority of the business houses. Hun-
dreds of dwellings are also dependent
solely on the plant for light. The origin
of the fire is unknown.

No Right to Ugliness.
The woman who is lovely in face,
form and temper will always have

PILING UP TESTIMONY.

NOTHING BUT PRAISE FROM ALL SOURCES.

Stands High in the Estimation of Those Who Have Tested Its Merits.

There is no doubt whatever as to
the merits of Morrow's Kid-ne-oids
judging from the good results obtain-
ed right here in Indiana. Morrow's
Kid-ne-oids are used daily by many
of our citizens and they all testify
without any hesitancy about the gra-
good they have received by the use of
this great kidney preparation. Kid-
ne-oids will positively cure kidney
backache, dizziness, sleeplessness,
nervousness and all urinary disorders
arising from a disordered condition of
the kidneys. Another citizen adds his
testimony as follows:

Mr. F. W. Stewart, who is one of
the firm of the Novelty Advertising
Co., of Ft. Wayne, Ind., and whose
office is 24 Arcade, says: "For the past
five years I have been troubled a great
deal with my kidneys; the worst sym-
ptoms being continued backache and
frequent micturition, discharges being
as high as twelve to fifteen times a day
and then I always had a painful sen-
sation. Some time ago I tried Mor-
row's Kid-ne-oids and began to feel
better within two days from the time
I began to use them. I now sleep well
and am free from pain in the back and
all other annoying symptoms. It is
quite a pleasure for me to tell any one
about my experience. Other gentle-
men in our office have used them and
have been equally benefited."

Kid-ne-oids are for sale at Alpha
Cox's drug store.

The First Anniversary.
It is just a year since the Chicago,
Milwaukee & St. Paul road inaugu-
rated its celebrated Pioneer Limited
passenger train service between Chi-
cago, Milwaukee, St. Paul and Min-
neapolis. This service marked the
new era in the railroad world in the
line of passenger accommodations. At
a cost of a quarter of a million dollars
that progressive company furnished
the traveling public, in its Pioneer
Limited train, comforts and facilities
the best ever produced. This train
has been described many times in
newspapers and magazines, but should
be seen and examined to be appre-
ciated. In beauty of finish, richness
and elegance of furnishing nothing
equal to it has ever been attempted
by any other road. The car builders
were nearly a year in completing the
Pioneer Limited trains (there are two
—one leaving Chicago for the west
and the other leaving the Twin Cities
for the east every evening in the year)
and they stand today a monument to
the builder's art. No regular passen-
ger train service in America is as well
known as the Pioneer Limited. From
the standpoint of passenger traffic the
past twelve months have been the
most successful in the history of the
St. Paul road, made so very largely by
the Pioneer Limited. The patronage
of this service is a striking illustration
of the fact that the public appreciates
a good thing.

Drink Grain-O.
If ever you have concluded that you
ought not to drink coffee. It is not a
medicine but doctors order it, because
it is healthful, invigorating and appet-
izing. It is made from pure grains
and has that rich seal brown color and
taste like the finest grades of coffee
and costs about 1/2 as much. Children
like it and thrive on it because it is
a genuine food drink contain-
ing nothing but nourishment. Ask
your grocer for Grain-O, the new food
drink. 15 and 25c.
